

YOUR ESSENTIAL GUIDE TO THE JUMPS

The Guide to the Jumps 2026-2027 is an exciting new publication created to inform, entertain and engage racing fans throughout the UK and Ireland's jumps season.

Designed as an accessible, highly visual and content-rich guide, it brings together the horses, jockeys, trainers, racecourses and stories that will shape the season ahead - giving readers one indispensable reference to return to from the opening meetings in October through to the major spring festivals.

At its heart is 60 Horses to Follow, identifying established stars, emerging talent and potentially exciting prospects for the campaign ahead. This is complemented by in-depth trainer and jockey profiles, expert insight and a comprehensive guide to every jumps racecourse across Britain and Ireland.

The guide combines the authority and knowledge expected by committed racing enthusiasts with an approachable editorial style capable of appealing to more casual racegoers and sports fans. Further features, statistics, seasonal previews and practical reference content make the guide, both an entertaining read and a useful companion throughout the campaign.

All in all, a comprehensive, accessible and collectable annual guide to the new jumps season - created for racing fans and designed to earn its place on the bookshelf long after race day.
